

## PRODUCT DATA SHEET

Product name: pearlescent pigment

Color : silver black

中文名称：珠光颜料-银黑

Particle size: 10-60 $\mu$ m

ITEMS	REQUIREMENT
Pearlescent effect (compare with standard sample)	No less than
Range of particle size (94% of the particles concentrate within the standard range)	No less than
PH value (10% aqueous solution)	6-9
dispersibility	Evenly disperse in water and flax oil
Water-soluble matter	$\leq 0.4\%$
Moisture content	$\leq 0.2\%$
Oil absorption	60-90g/100g
Density (20 $^{\circ}$ C)	2.8-3.0g/cm <sup>3</sup>
