

## TECHNICAL DATA SHEET

Product name: Methylcellulose HPMC

中文名称: 甲基纤维素

Molecular Formula: C<sub>17</sub>H<sub>32</sub>O<sub>11</sub>

CAS NO.: 9004-67-5

| TEST ITEM                | SPECIFICATION                              | TEST RESULT  |
|--------------------------|--------------------------------------------|--------------|
| Appearance               | White to slightly off-white fibrous powder | White powder |
| Loss on drying, WT%      | ≤5.0                                       | 4.6          |
| Residue on ignition, WT% | ≤1.5                                       | 1.3          |
| PH (25°C)                | 4.0-8.0                                    | 6.7          |
| Viscosity, mPa.s         | 48000-72000                                | 66700        |

Packaging: 25kg/bag
